Preliminary Alternatives

Other Comments

I live a half mile from the Thruway and the noise from traffic is constant. A goal of this project should be to reduce vehicular traffic, not provide opportunities for more cars to drive the lanes.

Options - light rail & small bus - must be a priority. These options must include stops, not just destinations. I do not take the Tappan Zee Bridge to go to Manhattan. I take the T2B to go to New England, Long Island, the Bronx, or Westchester. My friends & neighbors do the same.
