2 New York.

3 At the moment, Western New York  
4 has been bypassed for all mass transit  
5 and, both, north and south, east and  
6 west, and that a train station in  
7 Clarkstown next to the dump, like a  
8 Grand Central Station, would be ideal  
9 as a cross-town hub to Western New  
10 York and Northern New York with a  
11 one-stop ride into Manhattan.

12 I think that would increase  
13 economics in Western New York as well  
14 as Rockland County and it will bring a  
15 lot of people to New York for shopping  
16 and for tourism.

17 That's pretty much it.

in that neighborhood. That doesn't include our apartment complex across the street and the individual homeowners in South Nyack and Grandview.

At present, the quality of our air, we have black soot on our windows and we're very concerned about our health and how increased traffic will, negatively, effect us.

Also, all the information being given out has effected our property values and we're very concerned about our property values in the future with these ongoing talks and ongoing meetings.

In any of the information given, there is no benefits as we see for South Nyack and Grandview residents. I do not see any plans for mass transit being offered at the base of the bridge or, from all information I have heard, we are going to have to be bussed out of South Nyack and those

TZB-037T 4 MS. HAUSLER: My name is Jennifer  
5 Hausler, 20 South Delaware Drive,  
6 Nyack, New York 10960. E-mail address  
7 is jhausler@optonline.net.

8 I live on a hill above the  
9 Thruway in Central Nyack and the rail  
10 that they're proposing would be going  
11 underneath my house and I am really  
12 concerned about the noise and the  
13 vibrations and I really would not like  
14 them to choose that option.

TZB-038T 15 MR. BRADY-AMOON: My name is
