

TZB-072E

Michael,

My vote is for whatever will impact our community less from a noise and air quality point of view. We spent a small fortune to rebuild our house 3 years ago in the Pennybridge section of Tarrytown. Since moving back into the house in late 2004 we have been unhappy with the increase noise levels since the completion of the 87/287 project 3 years ago. Noise is worse than ever since a wall was not built on the Meadow Street bridge (facing Rt. 119). The last thing we need now is more noise, pollution, and traffic closer to us. We have 3 kids all under the age of 7... one with Asthma. Please keep our kids healthy.

My vote is still for a tunnel.

Thanks,
Mitch
