Re: Lappan Zee Bridge
& its Corridor

Dear Sir:

I was very disappointed that I could not speak in the open forum which was held at Suny Purchase in February but I did not receive the invitation until March 1/08. At least I can write down my viewpoints right now to you.

As far as the Lappan Zee Bridge is concerned \$10,000,000 was spent to upkeep it several years ago so why can't the authorities just provide more support underneath if it is needed and change the vehicular traffic to just cars as they did with the Pulaski Highway Bridge and eventually provide a tunnel for the trucks. This I see as a very workable plan one to be considered in keeping the bridge intact. I'm also sure that it would be a less expensive plan than a full replacement.

Sincerely yours,
Mrs. Elisabeth B. Joshi
