Subject: Tappan Zee Bridge Comments

Attachments:

Gentlemen:

It is my opinion that the Tappan Zee Bridge should be reconstructed in it's entirety and designed to include rail service. Any option which does not include rail service is short sighted and is an obstacle to upgrading mass transit in the region. Also, rehabilitation the existing bridge is not a viable option due to the long term costs and the disruption during the upgrades.

Sincerely,

Mark S. Micucci, P.E.
Valley Cottage, NY
