attn sir/madam:

last evening i had the pleasure of sitting on the tappan zee bridge feeling it sway back and forth while there was mostly tractor trailers sitting on this bridge with all that weight. this went on for an hour and 10 minutes.. i was ready to run off the bridge and abandon my vehicle. i was beginning to panic and realized there was not anything i could do.. please dont put the general public into this kind of a tizzy. if you need to close the bridge then close it but dont make people a prisoner with no way off just keep us off it all together..thankyou
