

**TZB-029E**

Dear Mr. Anderson,

I was so dismayed to see the new barrier going up on the sides of the Tappan Zee Bridge.

The best part of going over the Tappan Zee Bridge is the looking out over that vast expanse water!!

If those barriers continue to go up it will be like traveling through an awful metal tunnel!

There must be a better way to do what is necessary and retain the ability to see the beautiful Hudson River. Its a very special point of view that can only be had on the bridge .

Good design is more than just solid construction.

Sincerely,

Liz Prince
