Sleepy Hollow, NY 10591

As a resident of Sleepy Hollow, I have followed this process since the very first public meeting at the former Tarrytown Hilton when the engineers revealed the worrisome state of the TZ Bridge. I have reviewed the options carefully at every public occasion.

As an EMT with the Tarrytown Volunteer Ambulance Corps, I have had many occasions to stand on the TZ Bridge assisting accident victims. There is an obvious need to widen the bridge to allow for a breakdown/emergency vehicle lane, but I do not want to see any additional traffic lanes adding anything but increased noise and air pollution to my village.

Therefore, I would like to recommend that you select OPTION 4B. Light rail from Rockland to Portchester is the way to go.

Thank you for the opportunity to review and comment on this difficult decision.
