Dear Sir

3/25/08

I am writing as a concerned
Condo owner at the above address

All proposals to create a mass transit
hub at the intersection of Airmont Rd. and
exit 14B of the N.Y. S. Thruway would have
an horrendous effect on the surrounding
community. A huge increase in traffic at an
already overwhelmed intersection with Rt. 59.
The noise and pollution would be destructive to
the health and life styles of thousands of
senior citizens who's life savings are
invested in their homes and condos.

I know that we need mass transit
for a growing regional population but there
must be a better way.

Sincerely yours

Alfred Salesky
