

TZB-132E

Dear Sir:

I own a home in Tarrytown off Rt. 9 and near I-287. I have looked over the alternatives for bridge replacement and it appears that most of them involve the Pennybridge neighborhood in which I live. Are we going to lose our homes? Is the neighborhood going to be destroyed? The maps seem to indicate that the Sheldon Ave. section of the Croton Aquaduct could be accessed for bus or rail line. There also seem to be extensive plans affecting other portions of the neighborhood. I am very concerned about this issue.

Sincerely,

Kim Tamura
