TAPPAN ZEE BRIDGE/I-287
ENVIRONMENTAL REVIEW

Comment Form

Fall 2008 Public Information Meetings

You are invited to comment on the Tappan Zee Bridge/I-287 Corridor Project in the space below. If you need additional space, please feel free to use the back or additional sheets of paper.

① The new bridge seems to be 3 bridges, 2 for motor vehicle traffic and 1 for rail. This layout is less desirable than one large width for motor vehicle traffic. I prefer one large width for motor vehicle traffic because a moveable barrier can be used to adjust lanes during peak hours and thereby add or subtract lanes in each direction (which is currently the case.)

② Incorporate Hydro + Wind power into project.

③ Incorporate Lighter, Stronger, + modern materials into construction, i.e. Carbon Fiber.

Name: John F. Chiaia, Esq.

Interest Represented: Council Interstate Waste Services

Address: 500 North Franklin Tpk., Suite 212, Ramsey, NJ 07446

Please add my name to the Tappan Zee Bridge/I-287 Corridor Project Mailing list.

Comments may be submitted in writing through December 1, 2008 to the address listed below:
