I commute every day over the Hudson, from Port Jervis to one of three or four locations, in Westchester. I think you all did a great job on this proposed new bridge. The new rail link would be a godsend for me. I will do my part with letters, and calls to my elected officials. You need to be ready, to jump start this thing, because it looks like the Feds might be willing to get the ball rolling on this.

The impact, on our region, both short term, (job creation,) and long term, regional Growth, and easing congestion on 287, can not be underestimated.

Thanks for you hard work...
