**Subject:** new bridge

**Attachments:**

I am a resident of South Nyack and I read that the new bridge will be built 500 feet north of the existing one. Are South Nyack resident homes going to have to be taken down for the new bridge, and will some homes wind up with a wall or thruway in their front yards? Where can I see the road map plans as they affect South Nyack and my home on Clinton Avenue? Jennifer Hirsch
